

"Optimised drying time and energy consumption for every load"

Designed to adapt to your laundry needs, AutoSense responds to each load. Sensors in the drum detect humidity levels, optimising the length and energy use of each drying cycle. There is no overdrying, just better care of your clothes.

Product Benefits & Features

Sensors adjust drying time and energy based on load size

The AutoSense function uses sensors in the drum to measure humidity and decide the ideal length of drying time necessary. You save time with energy-efficient tumble drying while taking care of your clothes.

Fewer creases with Easy Iron

The Easy Iron programme allows your clothes to move freely in the drum without tangling, reducing creases for quicker and easier ironing. Clothes are dried evenly with minimum wrinkles.

Everyday care – dry cotton and synthetics together with Mixed

Dry cotton and synthetic clothing together using the Mixed programme. Achieve complete and even drying for all garments in a single cycle – without compromising results.

"Delay Start – tumble dry your clothes whenever it suits you"

Simplify your laundry routine with the Delay Start feature. Set your preferred time, and your tumble dryer will start according to your schedule. The ideal solution for a busy household, ensuring the laundry is done even if you're not home.

Reversible dryer door

The reversible door allows you to place your tumble dryer in the most suitable location for seamless unloading and loading of laundry. Rotate the door's frame, and choose the best opening position to suit your needs.

- Condenser
- Delay Start
- Sensor dryer
- Cotton programmes
- Delicate programme
- Synthetics programmes
- Reverse tumble action

Product Specification

Energy Rating	B	Door Hinge Position	Left reversible by user
Drying Capacity (kg)	8	Included Accessories	None
Dryer Type	Condenser	Optional Accessories	Direct drain hose, Stacking kit
Program List	Cotton ECO, Cotton Extra Dry, Cotton Cupboard, Cotton Iron Dry, Synthetic Extra Dry, Synthetic Cupboard, Delicates, Time Dry, Refresh, Easy Iron, Sportswear, Denim, Bed Linen, Mixed	Product Number (PNC)	All Open
Dimensions (mm) (HxWxD)	850x596x647(max)	Wheels/Feet	4 adjustable feet
Push Button Functions	On/off, Start, Delicate, Delay start, Time Dry, Anticrease	Total Electricity Loading (W)	2800
Interior Light	None	Plug or Hardwired	UK Moulded Plug
Reverse Tumbling	Yes		
Condensation Efficiency Rating	B		
Noise (dB)	66		
Cord Length (m)	1.45		
Drum Volume (L)	118		
Annual Energy Consumption (kWh)	561		
Drum Material	Zinc		
Depth Max (mm)	647		
Voltage (V)	230-240		
Required Fuse (A)	13		
Frequency (Hz)	50		
Motor Type	Inverter
